About IBTEC

The Israel Business and Technology Committee (IBTEC) is a new JCRC initiative that focuses on Israel's business and technology sector. IBTEC's mission is to educate the St. Louis business and technology community about the outstanding opportunities Israel has to offer in this area, advocate on behalf of the Israeli business and technology community, and strengthen the connection between the two communities. IBTEC will incorporate some of the functions of the former America-Israel Chamber of Commerce, and will build on its achievements.
